FOCUS ON POLAND

Member of the European Union, situated in the very heart of Europe, only 2.5 hours of flight away from Paris, London or Rome, Poland has been an attractive destination for investors from all over the world for years.

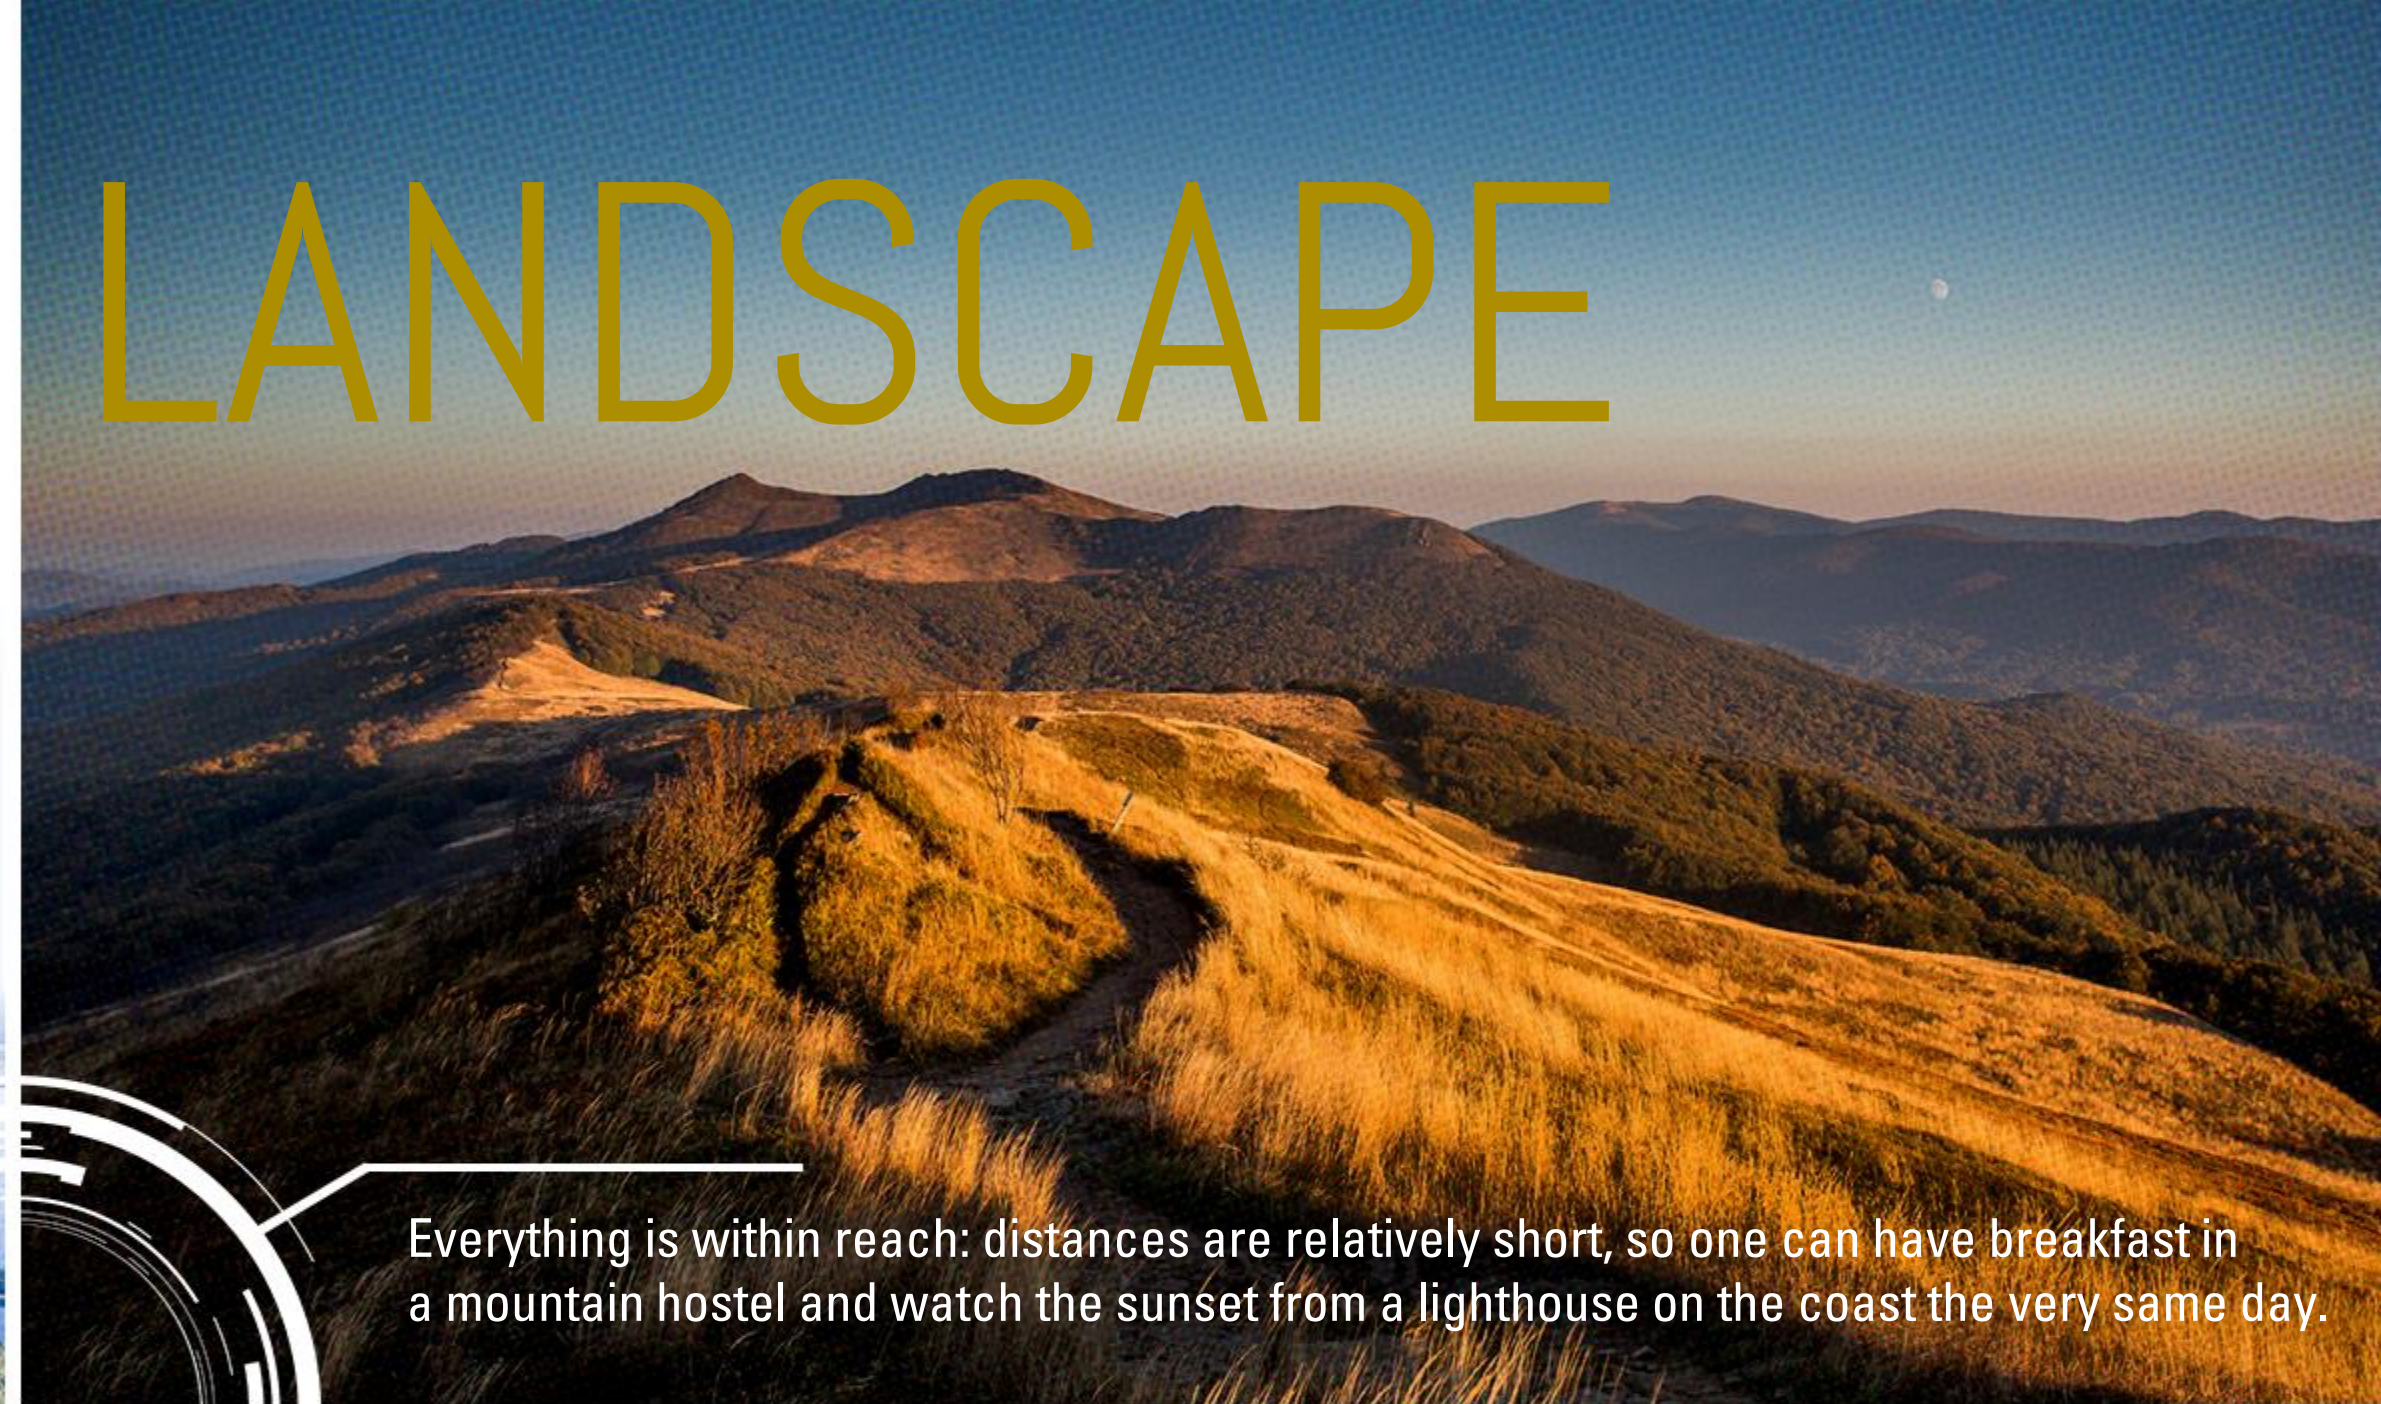

FOCUS ON LOGISTICS

With convenient flights and well-developed transport and hotel infrastructure - Polish cities are as attractive as any European metropolis.

FOCUS ON LANDSCAPE

The Polish landscape is very diverse and offers filmmakers plenty of varied locations, from the sandy beaches of the Baltic Sea, ancient woods, the lake region and soaring mountains to a genuine desert!

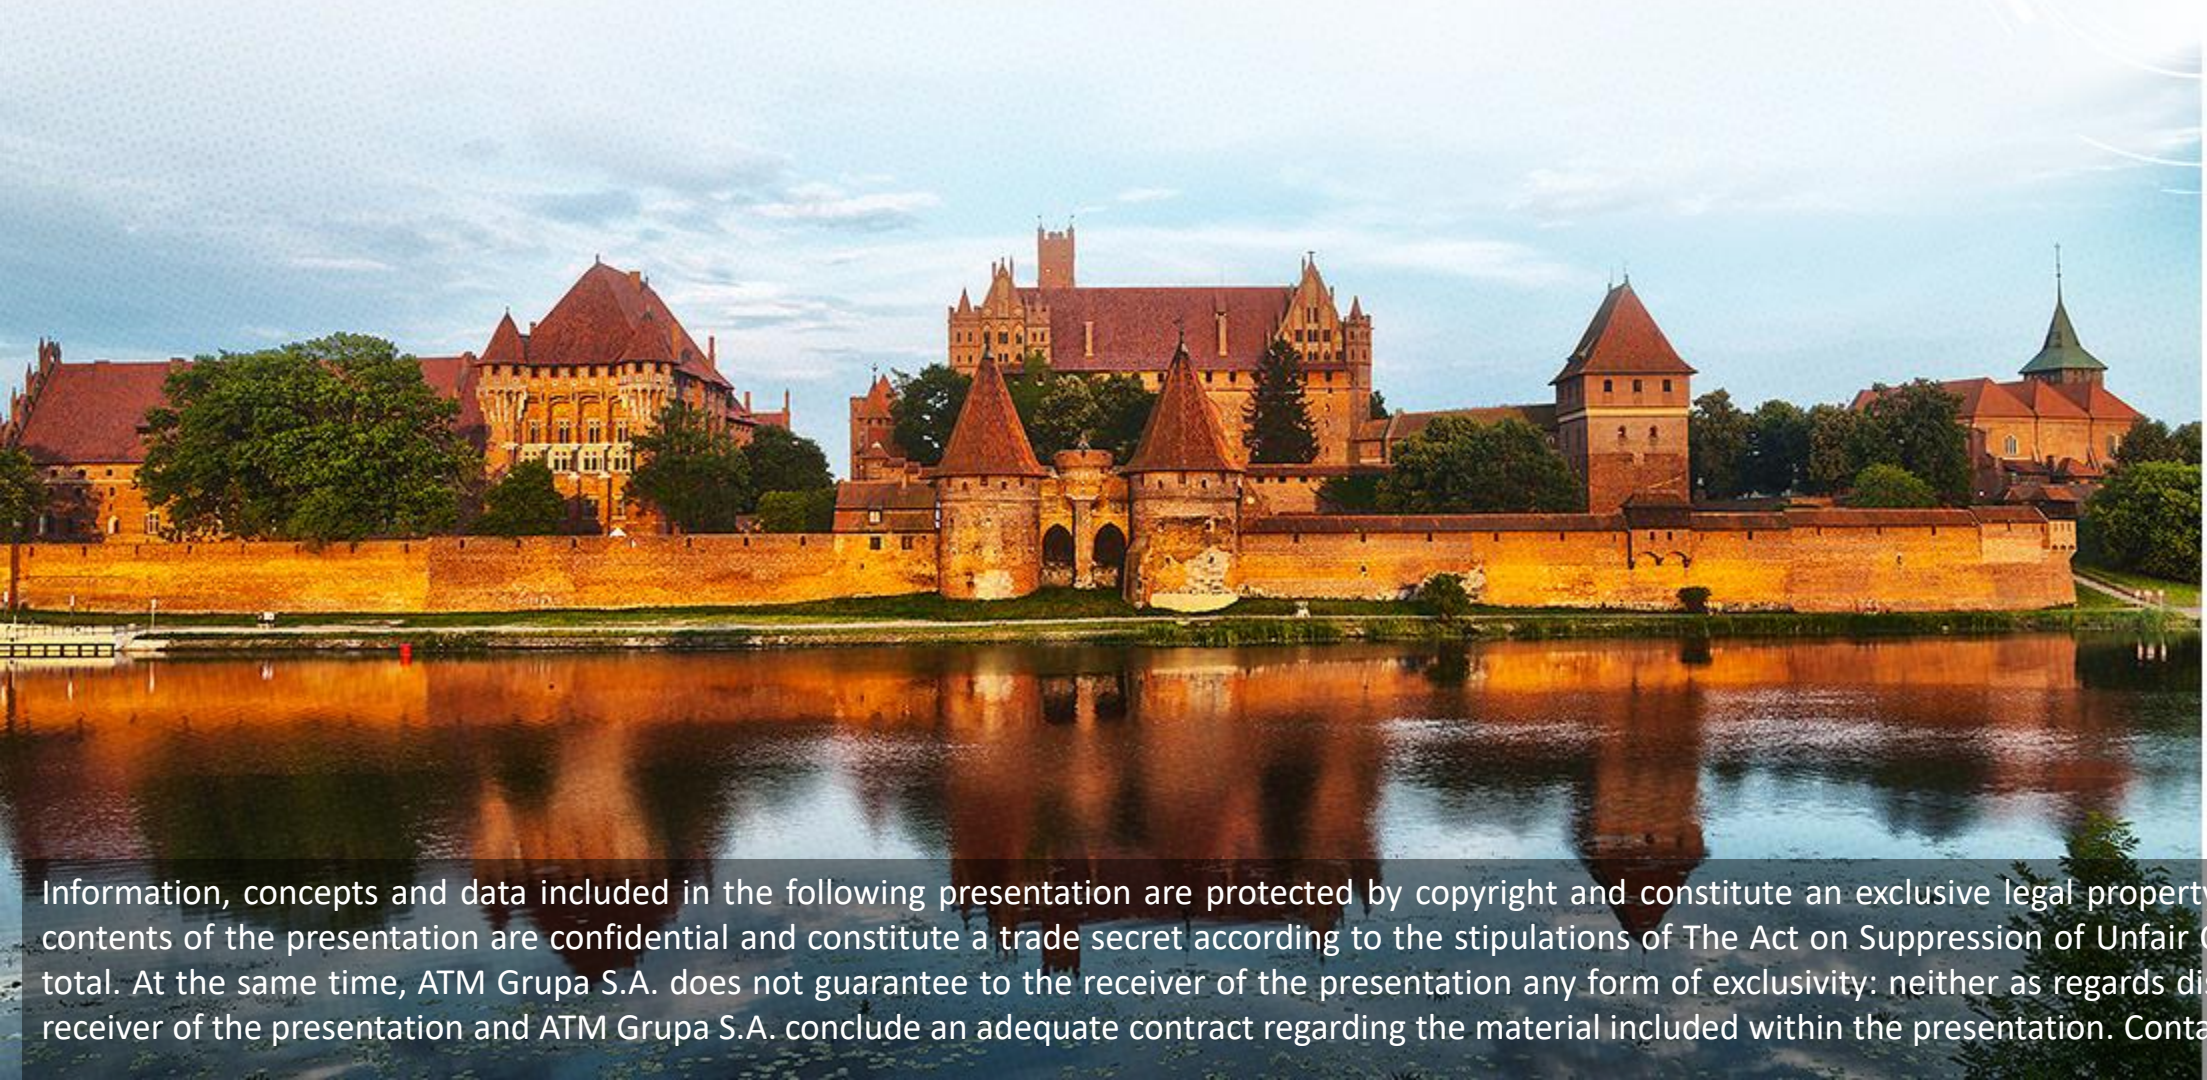

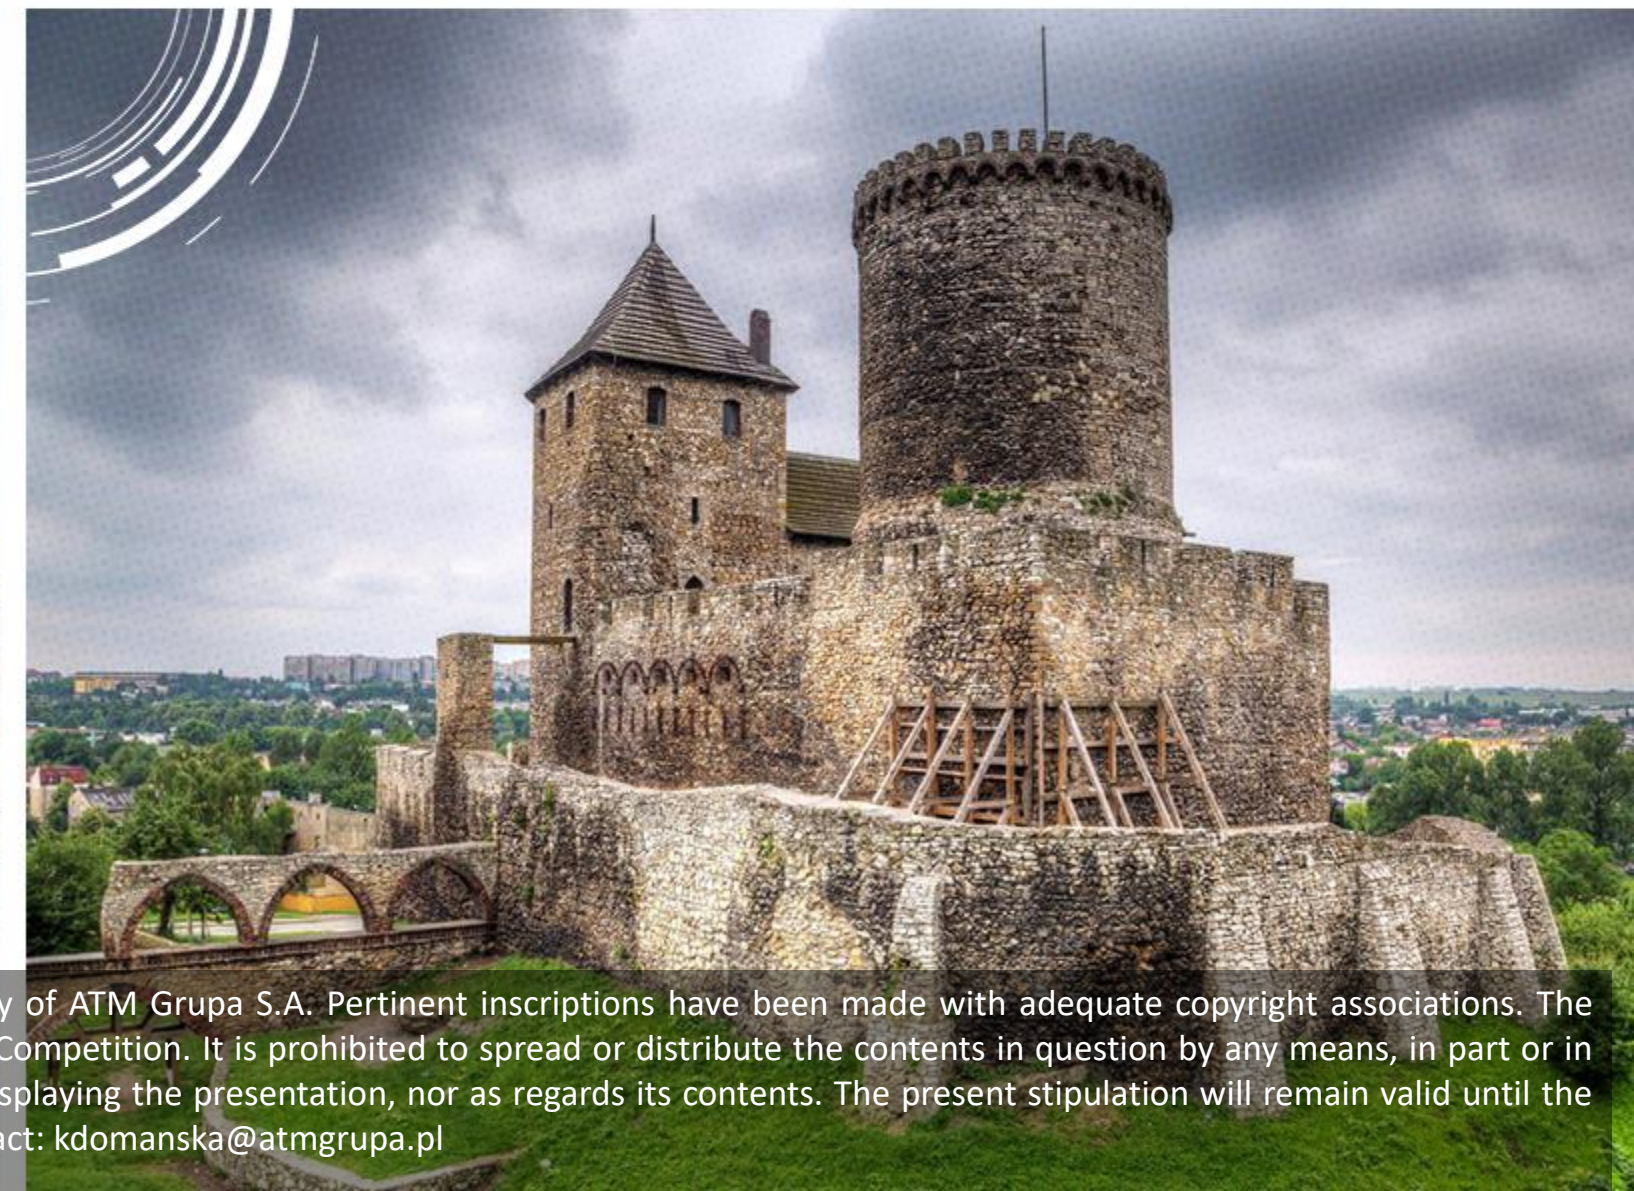

Everything is within reach: distances are relatively short, so one can have breakfast in a mountain hostel and watch the sunset from a lighthouse on the coast the very same day.

FOCUS ON ARCHITECTURE

Poland's architectural variety includes some historical monuments that date back to the Middle Ages. The cultural influences of both the East and the West, resulting from our geographical location, were reflected in the architecture and heritage of Communism, which is still visible among the modern buildings that have been erected in recent years.

TALENTS OF THE NEW GENERATION

Andrzej Wajda, Krzysztof Kieslowski and Agnieszka Holland made Polish Cinema famous. However, their talent has not remained unnoticed by the American Academy. Oscars were awarded to Polish directors, cinematographers, composers, scenographers and costume designers.
